REMARKS

Claims 1-15 and 31-39 are currently pending in the present patent application. Reconsideration and allowance of the application is respectfully requested in view of the following remarks.

Claim rejections – 35 USC §102

In paragraph 5 of his report, the Examiner rejected claims 16-29 under 35 U.S.C. §102(e) as being anticipated by U.S. Patent No. 6,522,880 (hereinafter called Verma). Please note that claims 16-29 are canceled without prejudice made to Applicant.

Claim rejections – 35 USC §103

In paragraph 7 of his report, the Examiner rejected claim 30 under 35 U.S.C. §103(a) as being anticipated by U.S. Patent No. 6,522,880 (hereinafter called Verma) in view of Wireless IP Network Standard to TIA/EIA/IS-835. Please note that claim 30 is canceled without prejudice made to Applicant.

Applicant cancels claims 16-31 solely in order to accelerate the patent prosecution process and for avoiding an eventual appeal that could delay the issuance of the present patent application. Claims 16-31 are canceled despite that Applicant does not agree with the Examiner's rejections and without prejudice made to Applicant.

In view of the abovementioned remarks, Applicants respectfully request favorable action for all pending claims.
